

SEMINAR ON TRENDS AND PROPERTY MARKET OUTLOOK 2009

SPEAKER PROFILE

DR TAN LOKE MUN

Dr Tan Loke Mun is the Director of ArchiCentre Sdn. Bhd. The architectural design company operates out of Kuala Lumpur, Malaysia where they are involved in a large variety of high profile work. He is the Immediate Past President of the Malaysian Institute of Architects (PAM) and is also a member of the Board of Architects Malaysia. Dr Tan obtained his architectural training from Deakin University and later his doctorate from Melbourne University, Australia. Dr Tan's field of expertise is in social and self-help housing and he has worked in most parts of urban and rural Australia, Uruguay and Brazil. He is a registered Builder in Victoria, Australia. ArchiCentre's architecture embraces and interprets regionalism in a modern context. In a rapidly changing world landscape, ArchiCentre believes that well designed buildings actually create value for all its users. As such it endeavours to find the balance between the rush towards modern standardization and the extra effort and detail that can create the requisite ambience for its projects. Often working from the basis of typologies, ArchiCentre has managed to interpret and translate simple regional metaphors into its architecture. ArchiCentre's works are widely published and they have received numerous Architectural Awards for their works.
